FOR IMMEDIATE RELEASE:

The Vires Law Group together with the Edward L. Tarpley, Jr., APLC, and with the support of the Former Feds Group Freedom Foundation, announce the submission of requests to the District Attorneys of nine Louisiana parishes to initiate criminal investigations of Dr. Anthony Fauci and other officials for alleged crimes committed against citizens of Louisiana prior to and during the COVID-19 pandemic. The extensive 30-page (plus exhibits) criminal referral requests have been submitted to the District Attorneys for Caddo, East Baton Rouge, Jefferson, St. Tammany, Orleans, Lafayette, Lafouche, Tangipahoa, and Rapides parishes. This effort to investigate Dr. Fauci and other accused persons is supported by donations from individuals and organizations such as the *Diamond Mind Foundation* and the *Fight Like A Flynn* PAC run by former National Security Advisor retired Lieutenant General Mike Flynn.

The requests made by attorneys Rodriguez, Miller, and Tarpley ask the District Attorneys to make criminal referrals to Attorney General Liz Murrill for investigation and charges, on behalf of the next-of-kin relatives of nine victims in Louisiana who have sought their assistance in requesting investigation into the deaths of their loved ones under COVID hospital protocols, intentional COVID-19 infection mismanagement, and suppression and denial of life-saving treatments in Louisiana hospitals, nursing homes, and other facilities.

The criminal referrals accuse Dr. Fauci, current and former federal officers, and hospital systems providing care within Louisiana of committing crimes per Louisiana criminal code, including:

- Terrorism – by Causing Intentional Killing or Infliction of Serious Bodily Injury, La. R.S. 14:128.1(A)
- First Degree Murder, La. R.S. 14:30
- Second Degree Murder, La. R.S. 14:30.1
- Manslaughter, La. R.S. 14:31(A)(3)
- Human Trafficking, La. R.S. 14:46.2

- Prohibited Racketeering Acts, La. R.S. 15:1353
- Cruelty to Persons with Infirmities, La. R.S. 14:93.3
- False Imprisonment, La. R.S. 14:46
- Second Degree Kidnapping, La. R.S. 14:44.1
- Battery, La. R.S. 14:33
- Simple Battery of Persons with Infirmities, La. R.S. 14:35.2

The following individuals and officers are Subjects of the requested investigation:

Anthony Fauci, ex-Director, National Institute of Allergy and Infectious Diseases (NIAID)

Cliff Lane, Deputy Director, National Institute of Allergy and Infectious Diseases (NIAID)

Francis Collins, ex-Director, National Institutes of Health (NIH)

Deborah Birx, ex-White House COVID Response Coordinator & former Director of DOD HIV Research at Walter Reed Army Institute of Research

Rochelle Walensky, ex-Director, Centers for Disease Control and Prevention (CDC)

Stephen Hahn, ex-Commissioner, Federal Drug Administration (FDA)

Robert Redfield, ex-Director, Centers for Disease Control and Prevention (CDC)

Peter Daszak, President, Eco-Health Alliance

Rick Bright, Director of the Biomedical Advanced Research and Development Authority (BARDA)

The attorneys who extensively researched and compiled the criminal referrals, along with many other concerned citizens, believe that it is essential that the Louisiana Attorney General and her staff conduct a thorough investigation to determine if the evidence contained in the filing together with further evidence to be uncovered through investigation substantiates indictment and prosecution of the identified suspects for the alleged crimes. If the evidence provides probable cause that crimes have been committed, then it is expected that the State of Louisiana will prosecute them to the fullest extent of the law. The submission details how the Subjects used their positions of trust and authority to inflict harm and death upon the people of Louisiana, and the manner in which many of the Subjects reaped financial benefits from their criminal acts.

Calls for accountability are coming from all over the nation and even the halls of Congress, as demonstrated during the recent June 3, 2024 congressional hearing where Anthony Fauci was accused of committing horrendous crimes against the American people. Based on the current legal landscape, if these culpable federal officers, former officials, and hospital systems are ever to be held accountable and punished for their COVID-related crimes, such justice must be delivered by a state and county level criminal process. We urge the people of Louisiana to stand with these victims and their families and support the District Attorneys and AG Murrill in bringing to light the truth of the victims' suffering and deaths and the suffering of their families, and in securing justice for these victims of these egregious crimes.
