### FOR IMMEDIATE RELEASE:

The Vires Law Group (VLG), with the support of the *Former Feds Group Freedom Foundation*, announces the filing of a request to Arizona Attorney General, Kris Mayes, for a criminal investigation of Dr. Anthony Fauci and other officials for alleged crimes committed against citizens of Arizona prior to and during the COVID-19 pandemic. The filing is specific to Arizona state criminal statutes and contains information of thirty-six (36) victims to include letters from nine (9) of the families of these victims. Similar filings have been submitted on behalf of their respective constituents to the Attorneys General and District Attorneys of Florida, Louisiana, Texas, Missouri, Oklahoma and Pennsylvania.

This effort to investigate Dr. Fauci and other accused persons is supported by donations from individuals and organizations such as the *Diamond Mind Foundation* and the *Fight Like A Flynn* PAC run by former National Security Advisor, retired Lieutenant General Mike Flynn.

Families of the victims request investigation into the deaths of their loved ones under Covid hospital protocols, intentional COVID-19 infection mismanagement, and suppression and denial of life-saving treatments in Arizona hospitals, nursing homes, and other facilities. Thanks to the efforts of victims around the country, there are currently two open criminal investigations by county prosecutors in two states at the time of this press release. Some of the alleged violations of Arizona criminal statutes include:

- Murder and/or Involuntary Manslaughter and/or Negligent Homicide
- Assault and/or Aggravated Assault
- Vulnerable Adult Abuse and/or Emotional Abuse
- AZ Anti-Racketeering
- Terrorism
- Trafficking of Persons for Forced Labor or Services
- Kidnapping

In addition to Anthony Fauci, the following individuals and officers are subjects of the requested investigation:

- Cliff Lane, Deputy Director, National Institute of Allergy and Infectious Diseases
- Francis Collins, ex-Director, National Institutes of Health
- Deborah Birx, ex-White House COVID Response Coordinator & former Director of DOD HIV Research at Walter Reed Army Institute of Research
- Rochelle Walensky, ex-Director, Centers for Disease Control and Prevention
- Stephen Hahn, ex-Commissioner, Federal Drug Administration
- Janet Woodcock, Principal Deputy Commissioner, Federal Drug Administration
- Peter Hotez, Dean for the National School of Tropical Medicine & Professor of Pediatrics and Molecular Virology and Microbiology, Baylor College of Medicine
- Robert Redfield, ex-Director, Centers for Disease Control and Prevention
- Peter Daszak, President, Eco-Health Alliance
- Ralph Baric, Professor, University of North Carolina
- Rick Bright, Former Director of the Biomedical Advanced Research and Development Authority
- The Administrators and Healthcare Providers of several hospital systems and facilities providing care to patients in Arizona

The VLG attorneys who extensively researched and compiled the filing, along with many other concerned citizens, believe that it is essential that the Arizona Attorney General and her staff conduct a thorough investigation to determine if the evidence contained in the submission, together with further evidence to be uncovered, substantiates indictment and prosecution of the identified suspects for the alleged crimes. If the evidence provides probable cause that crimes have been committed, then it is expected that the State of Arizona will prosecute the accused to the fullest extent of the law.

Calls for accountability are coming from all over the nation and even the halls of Congress as expressed by Senators Ron Johnson, Rand Paul, Ted Cruz, and many others. Based on the current legal landscape, if these culpable federal officers and former officers are ever to be held accountable and punished for their COVID-related crimes, such justice must be delivered by a state or county level criminal process. We urge the people of Arizona to stand with these victims and their families and support the District Attorneys and Attorney General in bringing to light the truth of the victims' suffering and death, and the suffering of their families, and in bringing justice against these egregious crimes.

If you would like to donate to support this effort, you may make a tax-deductible gift at <https://formerfedsgroup.org/donate/> and designate it for "AG Action".
